

# Don't be rotten, Johnny ! Don't play Israel !

*Nelson Mandela: 'We know too well that our freedom is incomplete without the freedom of the Palestinians.'*

Tonight's PIL gig is part of a tour that ends up in Israel's capital Tel-Aviv at the end of August.

Johnny, u ain't no human being if u play Israel. Look what they're doing to the Palestinians day after day. U happy with that?

U sure u ain't going just for the money? U really think they'll be worried if you call them a fascist regime LOL

U supported the boycott of South African apartheid. So do the same for Palestine. Join the real world.

## PLAYING ISRAEL'S BAD FOR YOUR PUBLIC IMAGE

Why not write to Johnny's management and challenge their endorsement of the state of Israel: [sfs@johnlydon.com](mailto:sfs@johnlydon.com) - [info@pilofficial.com](mailto:info@pilofficial.com) - [adam.cotton@outside-org.co.uk](mailto:adam.cotton@outside-org.co.uk)

## WHY JOHNNY SHOULD STAY AWAY FROM ISRAEL

- Surely Johnny doesn't want to support a state which
- ◆ Maintains a complete siege of Gaza as a collective punishment (illegal under international law)
  - ◆ Murders people who try to break the Gaza blockade.
  - ◆ Uses chemical weapons against civilian targets.
  - ◆ Builds an apartheid 'Berlin wall' in defiance of world opinion
  - ◆ Demolishes Palestinian homes in a sustained campaign of ethnic cleansing in East Jerusalem.
  - ◆ Builds settlements in the West Bank that drive Palestinians from their homes
  - ◆ Conceals a vast nuclear arsenal without signing the non-proliferation treaty
  - ◆ Forges British passports to carry out an assassination in another country.

## THE CALL TO BOYCOTT APARTHEID.

A growing number of artists (such as Gil Scott-Heron, Elvis Costello, The Pixies, The Gorillaz, Carlos Santana, The Klaxons and many others) are deciding they want nothing to do with a state that behaves like this. The Boycott, Divestment and Sanctions Campaign and Liverpool Friends of Palestine, applaud them and urge all artists to follow suit.
